

Set D

Answer any **two** questions.

1. Remove duplicate elements from an array.

Input:- const arr = [1, 2, 1, 3, 1]

Output:- [1,2, 3]

2. Write a program to check whether a string is Palindrome or Not.

Input:- "mobile"

Output:- It is not a Palindrome

Input:- "malayalam"

Output:- It is a Palindrome

3. Find the largest element of an array.

Input:- const arr = [1, 4, 7, 3, 6]

Output:- 7

4. Write a JavaScript program to convert a string into camel case.

Examples :-

"bridgeon solutions" → "Bridgeon Solutions"

"How Are You?" → "How Are You?"

"HELLO WORLD" → "Hello World"
